DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Group I, claims 1-11, in the reply filed on June 9, 2008 is acknowledged.

2. Claims 12-15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 9, 2008.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 6, "ID" is not descriptive and not clear.

Claim 1, line 7, "at least one second application" is not found from the descriptive portion of the specification and is not clear as to its meets and bounds.

Claim 3, line 7, "ID" is not descriptive and not clear.

Claim 1, lines 7-8, "a second application" is not found from the descriptive portion of the specification and is not clear as to its meets and bounds.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-11, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Hurta et al., US 6,317,721

Hurta discloses, e.g. Figs. 1-5 and related text a transponder system, e.g. col. 3, lines 30-50, a transaction device, e.g. col. 5, lines 49-57, and an activity application, e.g. vehicles traveling on lane 28. Hurta does not specifically disclose a second application comprising a common file structure and at least one partner file structure. Official Notice is taken that, as understood, a common file structure and at least one partner file structure used in the database art has been common knowledge in the art. To have provided such for Hurta would have been obvious to one of ordinary skill in the art.

7. Further pertinent references of interest are noted on the attached PTO-892.

8. Applicant's eight separate Information Disclosure Statements (IDS's) have been cursory reviewed. The voluminous nature of the IDS's is noted. Applicant is requested to particularly point out the relevancy of each reference in juxtaposition with the claim language.
